Key Features

- Equipped with an ultra impressive 16 mega-pixel camera with wide-angle lens
- Powerful 4G performance running Windows Phone 7.5
- Stream Videos in an instant and enjoy them on the massive 4.7" HD display
- Great for business productivity, brilliant email experience

Unique Selling Points

- **One less thing to carry-** Equipped with an ultra impressive 16 mega-pixel wide angle lens camera, a whole host of features, settings & photography functions, you really can feel comfortable leaving your point and shoot camera at home.
- **Enhance your efficiency-** Listen to music while working on a document, or keep your place in a game while reading important emails. The lightning quick 1.5GHz processor lets you seamlessly jump between work mode and play mode.
- **Live socially and always be in the loop-** Out-of-the-box you'll have no need to open separate social network apps to see what's happening. The latest updates from Facebook® and Twitte are pulled together and displayed on your home screen.
- **Your office in your pocket-** Now you can catch up on work whether you're in the office or out and about. With Microsoft® Office Mobile you can create everything from Word and Excel to PowerPoint documents, so you'll no longer be chained to your desk
