

## WHY BIGPOND MOBILE BROADBAND?

Faster speeds in more places with the Next G® network

- Australia's largest and fastest national mobile network
- Less buffering and less waiting in more places

### BigPond USB 4G

- Australia's fastest mobile broadband device
- Typical download speeds of 2Mbps to 40Mbps in capital city CBD and selected regional centres

### BigPond Ultimate® Mobile Broadband Wi-Fi

- Australia's fastest mobile broadband Wi-Fi device
- Share a mobile broadband connection across up to 5 Wi-Fi capable devices
- Typical download speeds of 1.1Mbps to 20Mbps in all capitals and many metropolitan and regional locations

### Plans to meet your needs

- A great choice of flexible and simple plans
- No additional usage charges if you go over your monthly usage allowance (the speed of your service will simply slow to 64kbps)

### A world of entertainment

- An amazing world of BigPond online entertainment
- Unmetered entertainment that doesn't use up your monthly data allowance (content charges may apply)

#### THINGS YOU NEED TO KNOW

Capital CBD means within 5km from the GPO in each capital city. Outside the selected areas, speed ranges will be less. Speeds vary due to factors such as distance from the base station, local conditions, user numbers, hardware and software configuration. If multiple users access the Wi-Fi device the typical speed range per user may be reduced. See [telstra.com/mobilebbcoverage](http://telstra.com/mobilebbcoverage) for details of coverage areas. Discounted device price with 24 month plan is available to new customers and existing customers with less than 3 months remaining on their term. Additional eligible services for \$20 discount are post-paid mobile plans, BigPond ADSL/Cable broadband plans and FOXTEL from Telstra.
